The History of Bowling

Most people think of bowling as a fun indoor game that can be played with family or friends. When most individuals think of bowling, they think of going to a bowling establishment, renting a pair of shoes, picking up a ball and trying to knock down all ten-pins in either one or two tries. This is done ten times in a full bowling game. There are however many different types of bowling, other than the traditional ten-pin bowling, that have been played for centuries around the world. The earliest form of bowling known to exist has been traced back to ancient Egyptian time, around 5,000 BC. The ancient Egyptians rolled stones at various objects with the goal of knocking them over. Over time, various varieties of bowling emerged from the Ancient Egyptian game. Variations of the sport range from traditional ten-pin bowling to nine-pin bowling, candle pin bowling, duck pin bowling, and five-pin bowling.

Additionally, two other forms of the game are also extremely popular to this day; these are lawn bowling and bocce, both of which are still played today. As with most popular sports, bowling has terminology of its own which individuals in the sport are expected to know and understand. For example, knocking down all the pins with one bowled ball is known as a strike, if you knock all the pins down with two balls it is called a spare, and if you leave a gap between the pins, it is called a split. These are just a couple of the common terms heard regularly during bowling games. While bowling is a fun and relaxing sport, there are a few minor risks involved. Bowling ball weights vary, with the maximum weight being 16 pounds. The motion of bowling along with the weight of the ball can put a strain on your hand, wrist, arm and shoulder. In addition, the motion of the delivery can also cause strain on the bowler's back and legs.

Preventative measures such as properly stretching prior to exercise can reduce stress and strain.

Etiquette Information

A few simple guidelines to help make your bowling experience more pleasurable.

- Be ready to bowl when the pins are set, but wait until the pin setting machine has completed its cycle and the sweep bar is raised, to make your delivery.
- Observe one-lane courtesy. The bowler on the right should bowl if both reach the approach at the same time. Stay off the approach while you wait.
- Taking too long to aim, or get set-up when you are on the approach, delays the game.
- Try to remain in your approach area while delivering the ball.
- Step off the approach once you have delivered the ball.
- Good bowling requires concentration. Have fun, but keep in mind, excessive movement, or noise, could be distracting when others are up to bowl.
- Excessive “lofting” hurts your game and damages the lane.
- Get permission to use another player’s ball.
- Refrain from using abusive language or obscene gestures.
- Play the game to win, but be a gracious loser. Good sportsmanship is always the key to a successful game.
- Wet shoes are a safety hazard. Watch where you are walking.

USBC Rule 12

– Approaches Must Not Be Defaced The application of any foreign substance on any part of the approach that detracts from the possibility of other players having normal conditions is prohibited. This includes, but is not limited to, talcum powder, pumice and resin on shoes, and/or soft rubber soles or heels that rub off on the approach. Commonly Asked Question – Rule 12. 12/1 One of the bowlers is having a difficult time sliding on the approach and applies a commercial product purchased at the center pro shop to the bottom of his/her shoes. The product is designed to help a bowler slide. The secretary says she has received a complaint from the opposing team and notifies the individual to stop using the substance or the game will be forfeited. Can an officer tell a bowler to stop using the substance and declare the game forfeited? Commercial products, talcum powder or any substance applied to the shoe or approach could be in violation of Rule 12. If a league participant uses a substance and somebody complains that it prohibits him/her from having normal conditions, the league officer should require the individual to immediately stop his/her action. If the individual refuses, his/her games are subject to forfeiture.
