

ANNUAL BOWLING CENTER CERTIFICATIONS

All bowling centers are required to have an annual lane certification in accordance with the **USBC “BOWLING CENTER INSPECTIONS MANUAL”**. Every local association is responsible for identifying interested volunteers to perform lane certification and lane dressing inspections for all centers within the association’s jurisdiction.

Lane Certifications commence after 01 April and are to be completed by 01 September (all discrepancies corrected). Further information about Certifications/Inspections can be found on the Internet at www.bowl.com under “**Departments - Specs/Certification**”.
